

## MED Programme targeted calls / Appels ciblés Programme MED

- ✦ Innovation for renewable energy and energy efficiency solutions in Mediterranean regions and cities  
Priority axis 1 (objectives 1.1 and 1.2) and priority axis 2 (objective 2.2) ✦ February, 10th – April, 12th 2012

*Innovation pour les énergies renouvelables et efficacité énergétique dans les régions méditerranéennes ✦*  
*Axes prioritaires 1 (objectifs 1.1 et 1.2) et 2 (objectif 2.2) ✦ 10 février – 12 avril 2012*

- ✦ Strengthening Mediterranean port activities and EU accessibility with simpler norms and a better use of information technologies ✦ Priority axis 3 (objective 3.1) ✦ February 27<sup>th</sup> – April, 27<sup>th</sup> 2012

*Renforcer l'activité des ports méditerranéens et l'accessibilité UE en simplifiant les normes et en développant l'usage des technologies de l'information ✦* Axe prioritaire 3 (objectif 3.1) ✦ 27 février – 27 avril 2012

## ►► PROJECT IDEA • IDÉE DE PROJET ◀◀

### Project idea title • Titre de l'idée de projet

Increasing the energy efficiency of the school/kindergarten and residential buildings

### Theme or keywords (for orientation see Terms of References) • Thème ou mots clés (pour orientation, veuillez-consulter le cahier des charges)

20-20-20 goal, Renewable Energy Sources (RES), Rational Use of Energy (RUE), Energy saving, Environment protection, Energy efficiency, Education, Raising of environmental awareness, Promotion of innovative renewable energy and/or energy efficiency solutions, reduced energy costs

### Programme objective • Objectif du Programme

Objective 1.1 • Objectif 1.1

Objective 1.2 • Objectif 1.2

Objective 2.2 • Objectif 2.2

Objective 3.1 • Objectif 3.1

### Project idea in short (max 300 words) • Idée en bref (300 mots max.)

The project would include the installation of solar collectors for preparing of domestic hot water, installation of ecological public lighting (LED) and boiler adaptation on one of the primary school/kindergarten in the City of Zadar area, which includes a field of integration of renewable energy sources technology in parts of the building. In order to raise environmental awareness among children, it would be installed in the school/ kindergarten an educational display with information about the system works, and also would be carried out the different types of educational workshops, etc.

**Please note:** By submitting this form you agree with the publication of your contact data, e.g. during information events or on the programme website. **Veuillez noter:** avec la mise à disposition de ce formulaire, vous acceptez la publication de toutes vos données (ex : pendant des événements, sur le site web, etc.).

Also, within the project it would be drafted Conceptual design and Feasibility study for improving energy efficiency (thermal facade installation, adaptation of heating systems using solar panels for additional heating of boiler for hot water and outdoor LED lighting) in residential buildings in a particular area and city quart, respectively. In the educational purposes, it would also be carried out the educations, presentations, etc. for citizens and employees of public administration, the educational brochures and similar educational material would be created and also the media would be engaged (radio and TV programme, etc.).

Besides raising of environmental awareness and promotion of innovative renewable energy and/or energy efficiency solutions, project implementation will result in reduced energy costs, increased energy efficiency, increased share of renewable energy sources and reduced CO<sub>2</sub> emissions and environmental pollution, respectively.

**Please name the work package you would like to develop • Veuillez indiquer le 'workpackage' que vous voulez développer**

Considering that the Republic of Croatia is not yet an EU member, City of Zadar searches Lead partner which would develop the project and invite City of Zadar to join in according to its abilities and needs of its "big picture" project."

**Main beneficiaries/target groups • Bénéficiaires/ groupes ciblés principaux**

City of Zadar, primary school, kindergarten, residential buildings, preschool and school children, citizens

**Approximate budget • Budget approximatif**

Not yet determined

**Looking for this type of partners • Types de partenaires recherchés**

Counties, Municipalities, NGOs, State and regional agencies, other relevant

**My contact data • Mes coordonnées**
